ROTARY INTERNATIONAL MATCHING GRANTS

The Rotary Matching Grant program provides matching dollars for club contributions to approved projects. The donation of the two firetrucks is being funded entirely by Rotary, along with a contribution for shipping from the Mexican Government.

BURLINGTON-ALAMANCE SISTER CITIES

BASC is an all-volunteer organization with the purpose of promoting better international understanding and relations.

Each year, we sponsor several inbound and outbound exchange trips with our sister city, Several groups have travelled between these cities, including instructors of language, members of the police, the fire department, telecommunications, the mayor, and the Burlington Boys' Choir. Several individuals have also travelled to our sister city in order to teach students English as a second language.

ABOUT OUR SISTER CITY

On April 15, 2004, an agreement of intent was signed between Steve Ross, Mayor of Burlington and Lic. Roberto Cervantes Barajas, Mayor of our sister city of Soledad de Graciano Sanchez (referred to as "Soledad"), in San Luis Potosi, Mexico.

Soledad is a suburb of the city of San Luis Potosi, with a population of 250,000. It is located in central Mexico. It is a center for manufacturing and transportation. It has a charming colonial city center and is rich in folklore and traditions.
